CONNECTING MARKETS. DELIVERING VALUE.

About Imperion Enterprises

We are a dedicated trading house specializing in the procurement and supply of virgin polymers and recycled polymer granules, serving manufacturers, converters, and processors across domestic and international markets. With deep expertise in polymer commodities, we bridge the gap between global producers and local industry requirements ensuring consistent quality, competitive pricing, and reliable delivery.

Our portfolio spans an extensive range of resins including HDPE, LDPE, LLDPE, PP Homopolymer, PP Copolymer, and specialty grades. We are authorized and recognized traders for some of the world's most reputed international polymer manufacturers:

SABIC	DOW	Lotte Chemical	Lotrene	Marlex (Chevron Phillips)
Sinopec	Repol	HMEL	OPAL	PLUSS

In addition to these globally acclaimed brands, we maintain strong sourcing relationships with leading Chinese polymer manufacturers offering cost-effective, quality-certified grades that meet the evolving demands of the processing industry.

Our recycled polymer division supplies high-quality regrind and reprocessed granules across PE, PP, and HIPS categories enabling our clients to meet sustainability targets without compromising on processability or performance. Whether your requirement is for commodity grades or specialty applications, we are your single-source polymer partner.

Regulatory & Compliance

All products traded through our company conform to internationally recognized quality, safety, and environmental standards. We ensure complete traceability from origin to delivery, backed by authentic documentation and third-party certification where required.

ISO 9001:2015 — Quality Management Suppliers are ISO-certified for manufacturing consistency; we maintain quality records for all batches procured and supplied.	REACH & RoHS Compliance Products comply with EU REACH regulations (EC 1907/2006) for chemical safety and RoHS directives where applicable.
MSDS / SDS Documentation Material Safety Data Sheets provided for all product lines as per GHS (Globally Harmonized System) standards for international trade.	COA — Certificate of Analysis Every shipment is accompanied by a manufacturer-issued COA confirming MFI, density, tensile strength, and other key parameters.
Customs & Trade Compliance All international shipments executed under correct HS codes with valid country-of-origin certificates (COO) and BIS/import-export compliance documentation.	Recycled Polymer Standards Recycled granules sourced from certified recyclers complying with Basel Convention guidelines and local PCW/PIR regulations.
